

COVID Data

April 30, 2021

Scott County Data

Confirmed and epi-linked cases and 14-day moving average

SCHD 13 Oct 2020 n=4166

Confirmed and epi-linked infection and 14-day moving average

SCHD 10 Nov. 2020 n=7526

December 9, 2020

Confirmed and epi-linked infections and 14-day moving average

SCHD 13 Jan. 2012 n=15,913

Confirmed and epi-linked infections and 14-day moving average

SCHD 10 Feb. 2021 n=17,388

Confirmed and epi-linked infections & 14-day moving average/100,000

SCHD 9 March 2021 n=18056

Infections by day of report & 14-day moving average/100,000

SCHD 1 Jan.-7 Apr. 2021

14-day test positive rate = 13.8% (IDPH)
Total infections since 21 Mar. 2020 = 19,316

Infections and infection rate 1 Jan. - 21 Apr. 2021

SCHD n = 20,121 since 21 Mar. 2020

14-day average test positive rate = 12.9%

Infections and infection rates

SCHD: 1 Jan - 28 Apr. 2021

Cumulative cases = 20,358 since 21 Mar. 2020

14-day average test positive rate = 10.4%

Scott County 14 Day Positivity Rate

CDC indicators and thresholds for risk of introduction and transmission of COVID-19 in schools

INDICATORS	Lowest risk of transmission in schools	Lower risk of transmission in schools	Moderate risk of transmission in schools	Higher risk of transmission in schools	Highest risk of transmission in schools
CORE INDICATORS					
Number of new cases per 100,000 persons within the last 14 days*	<3	3 to <20	20 to <30	30 to ≤ 200	>200
Percentage of RT-PCR tests that are positive during the last 14 days**	<3%	3% to <5%	5% to <8%	8% to ≤ 10%	>10%
Ability of the school to implement 5 key mitigation strategies: • Consistent and correct use of masks • Social distancing to the largest extent possible • Hand hygiene and respiratory etiquette • Cleaning and disinfection • Contact tracing in collaboration with local health department Schools should adopt the additional mitigation measures outlined below to the extent possible, practical and feasible.	Implemented all 5 strategies correctly and consistently	Implemented all 5 strategies correctly but inconsistently	Implemented 3-4 strategies correctly and consistently	Implemented 1-2 strategies correctly and consistently	Implemented no strategies
SECONDARY INDICATORS					
Percent change in new cases per 100,000 population during the last 7 days compared with the previous 7 days (negative values indicate improving trends)	<-10%	-10% to <-5%	-5% to <0%	0% to ≤ 10%	>10%
Percentage of hospital inpatient beds in the community that are occupied***	<80%	<80%	80 to 90%	>90%	>90%

The CDC issued new guidance the week of February 7th. The information shown here is provided for context.

Percentage of intensive care unit beds in the community that are occupied***	<80%	<80%	80 to 90%	>90%	>90%
Percentage of hospital inpatient beds in the community that are occupied by patients with COVID-19***	<5%	5% to <10%	10% to 15%	>15%	>15%
Existence of localized community/public setting COVID-19 outbreak****	No	No	Yes	Yes	Yes

*Number of new cases per 100,000 persons within the last 14 days is calculated by adding the number of new cases in the county (or other community type) in the last 14 days divided by the population in the county (or other community type) and multiplying by 100,000.

**Percentage of RT-PCR tests in the community (e.g., county) that are positive during the last 14 days is calculated by dividing the number of positive tests over the last 14 days by the total number of tests resulted over the last 14 days. Diagnostic tests are viral (RT-PCR) diagnostic and screening laboratory tests (excludes antibody testing and RT-PCR testing for surveillance purposes). Learn more on the [Calculating Severe Acute Respiratory Syndrome Coronavirus 2 \(SARS-CoV-2\) Laboratory Test Percent Positivity: CDC Methods and Considerations for Comparisons and Interpretation webpage](#).

ArcGIS Web Map

A map of Rock Island County, Illinois, divided into four districts. Each district is labeled with its name and a rate per 1,000. The districts are: North Scott (1.4 per 1,000), Pleasant Valley (1.6 per 1,000), Bettendorf (1.1 per 1,000), and Davenport (1.7 per 1,000). The map also shows major roads, rivers, and landmarks like the Rock Island Arsenal and the Mississippi River.

District	Rate per 1,000
North Scott	1.4
Pleasant Valley	1.6
Bettendorf	1.1
Davenport	1.7
